

**Bonville Upgrade Project  
Community Interest Group**

**Meeting #2**

**Outcomes from Discussion Groups**

<b>No.</b>	<b>Request/Query</b>	<b>Action for</b>
<b>1</b>	<b>Design</b>	
	What is the pavement type south of Reedys Creek?	Abigroup
	How is the settlement of the road managed to avoid the experiences of the Raleigh Deviation?	Abigroup
	What is the general arrangement at Reedys Creek?	Abigroup
	Has the alignment been altered so that it is now closer to the residents of Grandis Road?	Abigroup
	Will the rock blanket at the back of Grandis Road still function once settlement occurs?	Abigroup
<b>2</b>	<b>Traffic</b>	
	Traffic staging and traffic management on all local roads.	Abigroup
	Traffic management during school holidays	Abigroup
	Traffic delay notification	Abigroup
	What consideration is given to the effects on peak hour traffic during construction?	Abigroup
	Advisory signage and the impacts on Tourism	Abigroup & RTA
<b>3</b>	<b>Schools</b>	
	Effect on school bus stops both during and post construction.	Abigroup
	Sensitivity of dealing with school kids	Abigroup
<b>4</b>	<b>Landscaping</b>	
	Eucalyptus Grandis trees are dangerous with their falling branches. Consider using other trees.	Abigroup & HBO+EMTB Urban & Landscape Design
	What is the nature and extent of landscaping between the highway and the rear boundaries of Grandis Road?	Abigroup & HBO+EMTB Urban & Landscape Design
<b>5</b>	<b>Noise</b>	
	Is the noise of trucks going up inclines considered in traffic modelling for post construction?	Abigroup & Basset Acoustics
	What happens if noise modelling gives different results to actual levels? What is the process for addressing the difference?	Abigroup
	More information regarding traffic noise and noise mitigation measures.	Abigroup & Basset Acoustics
	What are the impacts of bridge joints in the road on noise levels?	Abigroup
<b>6</b>	<b>Environmental</b>	
	Where is the source of the water to be used during construction?	Abigroup
	Will the sediment basins be sufficient to accommodate large quantities of water within a short period of time?	Abigroup
	Have there been any fog studies for the highway?	RTA
	Pipe drainage in wetlands	Abigroup
	Flood study - for the 1 in 100 year flood levels at major creeks.	Abigroup
	Fauna crossing sizes	Abigroup
	When is the fauna fence going in?	Abigroup
	What is the procedure for clearing in Bongil Bongil National Park?	Abigroup
	What are the impacts on air quality?	RTA
	What is the quality of the treated effluent water?	Abigroup
	Does compaction affect artesian water supply and what	Abigroup

	happens if it does?	
	What water quality monitoring has occurred prior to construction?	Abigroup
	Who is responsible for maintenance of environmental mitigation measures?	Abigroup
	What will happen if there are problems with mitigation measures/monitoring results?	Abigroup
<b>7</b>	<b>Local Roads</b>	
	Reduction in speed limits on local roads.	Abigroup
	Who is responsible should the condition of the local roads decrease due to additional traffic from the site?	Abigroup
	Residents along Bonville Station Road whose access will change both during and post construction.	Abigroup
	How is access to site managed for any emergency vehicles in the event of an accident on the project?	Abigroup
	What security will be provided to residents along Grandis Road during construction?	Abigroup
